PROJECT DESCRIPTION:

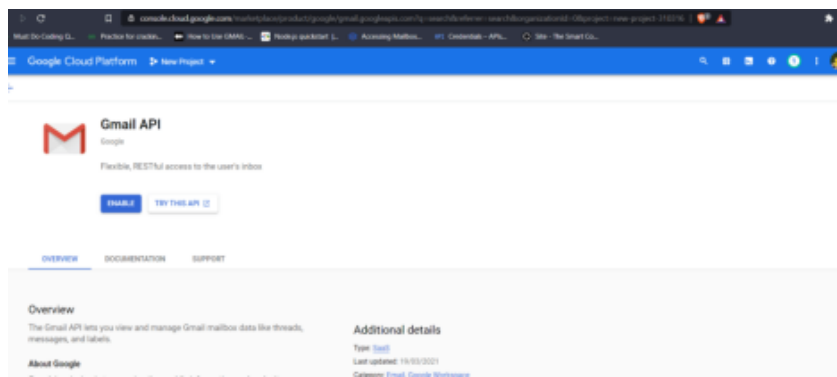

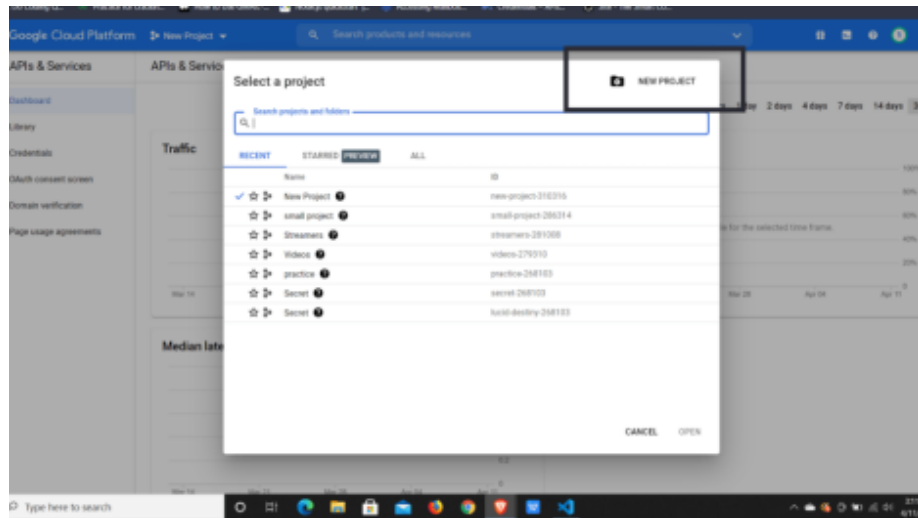

According to our knowledge, we get email notifications through g-mail and whatsapp notification through whatsapp. But here we, initialized a concept called email alerts to whatsapp, where the notifications of email can get directly get notified through whatsapp. By using API's namely 'g-mail' and 'CallmeBot' the alerts of email can directly get notified through whatsapp.

PROJECT STAGES

Stage:-1	Whats app Notifications	https://www.callmebot.com/blog/free-api-whatsapp-messages/
----------	-------------------------	---

STAGE:-2 EMAIL NOTIFICATION GMAIL API

STAGE:-3	EMAILALERTSONWHATSAPP
-----------------	------------------------------

Here , in this stage we can observe the email alerting directly to whats app.
